

## Margaret Johnson Married To Ted Proudfoot

A quiet home wedding was solemnized at the home of the bride's parents, Mr. and Mrs. John T. Johnson, when their daughter, Margaret Cornelia, was united in marriage to Theodore N. Proudfoot, son of Mr. and Mrs. H. D. Proudfoot at 12:30 June 16. The ceremony was performed by Rev. F. L. Cannon.

The bride's dress was of dark blue silk chiffon and she carried a large bouquet of tiny pink rose buds. An altar effect across the corner of the room was of pure white gladioli, white tapers, green fern and baby breath. Flowers in the room were pink Canterbury Bells and Clarkia. Mrs. J. H. Johnson and Mrs. Dorothy Baker, sister of the bride, assisted in serving the refreshments. The bride went beautifully decorated cake.

The young couple left for Eugene where Mr. Proudfoot is employed by the Union Oil Co. The bride attended school at the University of Boise and at Northwestern Business college in Portland. Mr. Proudfoot is a graduate of the University of Oregon. Guests were Mr. and Mrs. H. D. Proudfoot, Mr. and Mrs. H. D. Proudfoot and baby of Cordon, John Proudfoot, Mr. and Mrs. J. R. Johnson, Mr. and Mrs. A. S. Johnson, Rev. and Mrs. Cannon and Mrs. Dorothy Baker.

Mrs. Leon Smith and Miss Dana Jean McMillen entertained for the pleasure of Miss Margaret Johnson prior to her marriage Sunday to Mr. Proudfoot. The hostesses served dessert luncheon at a table appropriately decorated with bride and groom figures. Two tables of bride were in play with high scores going to the honor guest.

Joint home coming of the Eastern Star and Masonic lodges was held here Tuesday evening and a good attendance was reported. A social evening and refreshments made up the program.

Mr. and Mrs. Ray Crews of California left here and after a week's visit in The Dalles will go to Hollywood, their home.

Joe Brackett was in Wasco on business coming from Portland.

Mr. and Mrs. Roy Belshee returned home Saturday from a trip to California on which they visited the world's fair, relatives of both, including George Hennagin and Dave Fuller, son and brother respectively of Mrs. Belshee.

A reunion of the Morrow family was enjoyed at Eagle Creek Sunday when 32 persons met for a social good time and reunion.

Donnie Wilson of Portland and Roger Ekstrom of Portland are guests of their grandparents, Mr. and Mrs. Roy Belshee.

Mr. and Mrs. Ed Feldman were in Hermiston Sunday and their daughter, Mrs. Hultz came home with them after visiting with the Maffies.

"I hear they've taken the early morning bus off your line. Do you miss it much?"

"Not since they took it off."

"I'm borrowing your patent leather slippers for the dance tonight."

"Why?"

"Because the patent has expired on mine."

**WASHINGTON FARMER**  
Says  
"CATERPILLAR" BELLOWS SEALS Mean More Life!

HENRY PHILLIPS, LIND, WASHINGTON, says:

"Those bellows seals you talk so much about certainly are OK. I've worked my 'Caterpillar' Diesel over six thousand hard, dusty hours and never so much as cracked the paint on the cap screws on the final-drive housings."

If you want long tractor life and fewer final-drive oil changes, be sure you investigate the patented copper bellows seal used exclusively on "Caterpillar" track-type tractors.

## Gas Pumps Found Accurate As General Rule In Test

Gasoline pumps aren't the chisel some people believe they are, the state department of agriculture finds as a result of a secret test conducted over a six months period, and in every corner of the state.

The test was conducted by Arden A. Reed, state deputy sealer of weights and measures, who kept an accurate record of every gallon of gasoline pumped into his tank and compared it against the cubic inch calibrations in the secret tank built into his car. For the most part he conducted the test in a private car instead of in one bearing a state license or insignia.

He found that of the 495 gallons of gasoline purchased in this period, he had a shortage of 719 cubic inches or 3.11 gallons in the period. He purchased the gas in five gallon lots, and his check showed 35 of the deliveries were correct in measure, five were over measure, and 59 were short from 4 to 30

cubic inches for the five gallon lots. The tank contained 1,155 cubic inches.

Reed found, in the cases of shortage from visible type pumps, that every time he bought the first delivery of gas in the morning he was a bit short. This was due to air in the hose and he found that in rechecking these pumps that measurements were correct after the first delivery of the day had been made. The human element was the only cause of shortage at meter pumps, he found, with shortages here being due to the meter being set too close or the attendant stopping before the meter registered the full five gallons.

Ah, for them good old bye-gone days! A car in every garage, a chicken in every pot. How times have changed! The garage has gone to pot and there's a chicken in every car.

**HI-WAYS TO HEALTH**

**OREGON DAIRY COUNCIL**

These warm summer days invite the family to take dinner or supper out of doors as a change in the routine of cooking and eating. A simple fare on your card table, set on the shady side of the house or on the porch, is a pleasant diversion. Or you can pack the food into a basket and picnic farther afield. But whenever you set your table, outdoors or indoors, the rules for a well-balanced meal still apply.

With all the modern picknicking aids it is easy to make the outdoor meal simple and nutritious. Vacuum jugs that will keep food hot or cold for hours make it possible to carry soup, stew, chili or any other food and have it all ready to serve. A covered casserole of scalloped potatoes, tomatoes or mixed vegetables will also hold its heat for an hour or so, or placed snugly between pillows much longer.

Raw vegetables as a relish or salad are an important part of the modern picnic. Before you

leave home, wash the greens and let them get crisp in the refrigerator. Then wrap them in wax paper and pack them in a paper bag. Tomatoes are better taken whole and sliced at the picnic table. Carrot and cucumber sticks, celery, radishes or green onions will be fresh and crisp if you carry them in a covered glass jar.

Milk, for everyone and always for the children, is the best beverage for the picnic meal. The use of vacuum bottles again will keep the milk at a constant temperature. This is important for milk should be cool for drinking.

Ice cream is always the ideal dessert when eating outdoors. Among the items that make pic-

## A LOT HAS HAPPENED IN THOSE 30 YEARS

WHY YES, I REMEMBER...

1910 1915

Earth passed through tail of Halley's comet... Arizona and New Mexico admitted to the Union... Amundsen discovered south pole... steamship Titanic struck iceberg... Panama canal opened... first World War started... U. S. Marines take Vera Cruz, Mexico.

1915 1920

First transcontinental telephone conversation... U.S. entered World War... Bolsheviks seized Russia... first regular air mail... daylight saving time inaugurated... Armistice signed... prohibition adopted.

1920 1925

League of Nations organized... King Tut's tomb discovered... Gandhi began passive resistance campaign in India... Mussolini forms new Italian government... Hitler imprisoned following beer hall putsch.

1925 1930

Nellie Ross of Wyoming became first woman governor... Lindbergh flew to Paris... Hoover elected President... Soviets start five year plan... Graf Zeppelin carried 20 passengers around world... stock market crashed... Papal State recreated as Vatican City.

1930 1935

France withdrew from Rhine... England and other European nations went off gold standard... Roosevelt elected President... Lindbergh baby kidnapped... Chino-Japanese war started... bank holiday declared... NRA in operation... Dillinger killed by FBI.

1935 1940

German Jews lost citizenship... Will Røgers and Wiley Post killed in airplane crash... Spanish civil war... Charles Mattson kidnapped... dirigible Hindenburg burned at Lakehurst... Germany seized neighbors... two world fairs... Roosevelt changed Thanksgiving date... second World War started.
