Milk Industry Held Threatened

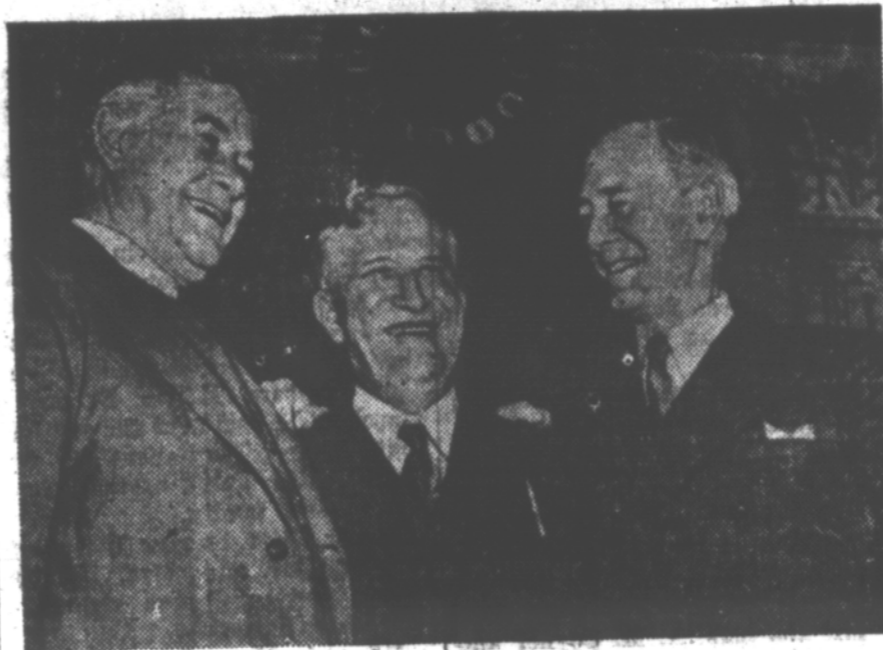

Oregon's third largest business, the dairy industry, is threatened with the repeal of the Oregon Milk Law at the November 5 election, which, according to C. W. Jerome, secretary Oregon Milk Producers who are opposing the repeal, would invite the return of the milk strikes, price wars and general chaotic conditions that prevailed before the milk law became effective.

Under the administration of the law, there has been a constant improvement in the dairy industry. There have been no strikes, price wars, nor major problems. The consumer is now paying between 1 1/2 and 2c per quart less and the producer is receiving nearly 5c more out of every milk dollar than before the milk law became effective in 1935.

Portland now has one of the finest milk supplies any where in the United States, with a price that is 1 1/2c lower per quart than the national average, the consumer is getting better milk for less money, the producer is making more money and the very important dairy industry is in a more healthy condition than it has been at any time in its history.

REX ELLIS SAYS: As long as Congressman Pierce has left his post in Washington to campaign in Eastern Oregon I Challenge Pierce to

EXPLAIN—Why Pierce Voted NOT to increase the penalty on Treason and Sabotage. Because on June 5, 1939, Pierce voted not to make it EVEN a five year penalty for any foreign alien or person who advocated the overthrow of the government by force.

EXPLAIN—Why he voted against the Dies committee appropriation: Which committee was investigating un-American and Fifth Column activities in the United States.

EXPLAIN—How he can be a FRIEND of the FARMER and vote not to deport Harry Bridges.

EXPLAIN—When the Congressmen started passing on the constitutionality of a law instead of the Supreme Court.

EXPLAIN—Why the American Legion, a non-political—but patriotic organization, passed a resolution to leave Walter Pierce at home.

EXPLAIN—Why you failed or neglected to get the appropriation for the Moro experimental station. This experimental station is the place that developed federation wheat.

EXPLAIN—Why you voted billions for less worthy causes and explain what you had against this station.

REX ELLIS CONTENTS that the Congressmen have got to stop pussyfooting and playing up to subversive elements in the United States, in order to get votes, and start voting Americanism.
