Much delay and inconvenience could be avoided if motorists would have the spare tire checked each time the other tires are checked, suggests Emergency Road Service of the Oregon State Motor Association. The spare loses pressure even though it is not in use, and unless it is inflated regularly the pressure may be too low when an emergency arises.

**ELECTRIC RATES ARE CUT AGAIN!**

**NOW ELECTRIC COOKING COSTS ONLY \$2.25 A MONTH\***

\*In the average home

How many times have rates been cut?  
3 times since 1936.

How much do customers save?  
Rate cuts made since 1936 save customers \$1,300,000 a year.

How can P.P.&L. make so many reductions?  
Because it keeps increasing the sale of electricity to each customer, and keeps developing new markets and new uses for its electric service.

Will rates be cut still more?  
Yes, as the company is able to carry out its long range program of increasing sales, improving efficiency, and passing the savings on to you.

Minimum bills for rural customers have been cut from \$1.50 to 95c a month. Minimum bills for city homes have been reduced from 15% to 25%. In addition, prices on all quantities of electricity—large or small—have been substantially reduced.
