### OF COURSE

"Hoo mony o' tey cadamels do I get for a penny?"

"Eight or nine," replied the shopkeeper, casually.

"Och, then, I'll ta'e nine."

The manner of the giving shows the character of the giver, more than the gift itself.—Lavater.

The reading room is in the rear of the church building and contains all authorized Christian Science literature, which may be read, borrowed or purchased. The public is welcome to all services and to make use of the reading room.

## Bicyclists Should Know Traffic Rules

Youthful bicyclists, who will be the drivers of tomorrow, must be taught traffic safety and traffic rules for bicycles, Dr. E. B. McDonald, president of the Oregon Motor Association, said in urging parents to supervise more carefully the use of bicycles by their sons and daughters.

"If parents will assume greater responsibility in connection with such bicycle use, many of the 700 deaths and 35,000 injuries annually to bicyclists will be prevented," Dr. McDonald said. "About half of these involve children from 5 to 14 years of age."

"Here are several suggestions for parents, recommended by the American Automobile Association with which the Oregon State Motor Association is affiliated:

"See that all proper safety equipment is included when bicycles are purchased. Make regular inspections to assure that this equipment is in safe operating condition at all times. Cooperate in enforcing rules and regulations issued by schools and police. Prohibit younger children from riding in busy traffic streets until they have developed skill. See that all learning is done in parks, playgrounds or other safe places away from traffic. Explain what might happen if unnecessary chances are taken, or if foolish tricks are performed; and prohibit smaller brothers and sisters from riding on the handlebars or crossbar."

Two weeks from today the crowds will gather at the Sherman County Fair Grounds for the first day of the 1941 fair.

There will be life and excitement, music and laughter, races and bucking calves and clowns, and over it all the unmistakable feeling of the county fair, of friends and neighbors and merry-making crowds.

This year most of us could go far to find amusement and entertainment. Few will for all know that there's more fun to be had at home during fair week.

Ruler of this fun loving realm will be a queen who will be crowned as Queen Cleo, Queen Reatha, or Queen Dorothy. She will ride a white horse in queenly style and be accompanied by an admiring court.

4-H Clubbers of this county have the biggest, fattest bunch of calves ever fed in all the history of club work here. They are simply immense. The kids are justly proud of them. This year in their own barn they will have room to display them.

It is always an inspiring sight. Come to the fair in the morning and see our boys and girls. It will give a bit of gladness.

Bucking is of the best at the Sherman County Fair. Spectators are closer to the horses than in most shows, the quality is recognized all over the northwest as the best.

RACING -- this year spectators will be able to see the entire race as the infield has been leveled. That's the only thing that could make these races better. They are always close enough to cause disputes as to which horse won. Boy, they give you a thrill WHILE RACING.

Dancing is the answer to what to do at night. Monte Brook's orchestra is the answer to how good the music is going to be. Dances will be held Thursday, Friday, and Saturday nights and will be peppy as the occasion demands or permits.

Concessions are to be located near the dance hall assuring a lively spot where something will be going on all of the time.

There'll be something going on this year
