TIPS ON STUDY LAMPS

by the PP&L Home Lighting Advisor

PUT AN I. E. S. LAMP ON THE STUDY TABLE

...and watch the youngsters sail through studies in jig time. The translucent bowl filters out harmful glare. The wide shade throws an abundance of soft light over the whole table.

—OR MODERNIZE THAT GOOSE-NECK LAMP...

Simply straighten it up and remove the light bulb and metal shade. Screw on a plastic bowl (available at most dealers). Add a 100-watt bulb and a shade with light lining.

—OR PUT AN INDIRECT SHADE ON THE CENTER LIGHT

For only a dollar or two you can buy a translucent bowl and white-lined shade and make over that glary old fixture, so that it gives plenty of glareless indirect light. Father will love it at mealtime.

SIGHT IS PRICELESS—LIGHT IS CHEAP

Pacific Power & Light Company's New Low Rates make cheap electricity cheaper still

PHONE FOR A FREE LIGHTING CHECK-UP

A trained lighting advisor will call and measure the lighting in each room with a sight meter... a scientific instrument that shows you instantly whether you're getting enough light to prevent eyestrain. She will show you how modern lighting not only protects precious sight, but adds new beauty and charm to your home. This service is free... it's part of PP&L's program to help you get full benefit from the electricity you buy.
