

## Theater of War Between U. S. and Japan

Here in graphic detail is shown the location of strategic points in the war between Japan and the United States. Distances between important points now in the headlines are also shown. Of particular interest are the following points: the Russian port of Vladivostok and its nearness to Japan, which would make it an ideal air base in a bombing raid campaign on the enemy; the Hawaiian Islands where at Pearl Harbor the Japanese opened their war on the United States with a devastating aerial attack; the most vulnerable sector of the continental United States to Japan attack—the Pacific coast area.

## Million Red Cross Volunteers Aid Defense Program

Washington, D. C.—Behind the front lines of U. S. defenses more than 1,200,000 Red Cross volunteers are on the job—making surgical dressings, knitting sweaters and giving comfort articles, learning the rudiments of emergency mass feeding and scores of other duties in an all-out effort for national defense.

The largest defense task now being undertaken by Red Cross volunteers is the production of 40,000,000 surgical dressings for the Army and Navy, according to Mrs. Dwight P. Davis, national director of Volunteer Special Services. The undertaking came to the Red Cross at the request of the surgeons general of the Army and Navy when a survey revealed commercial manufacturers could provide only ten per cent of the surgical dressings needed.

Home Service volunteers and Gray Ladies, whose duties are directly concerned with the man in uniform also are expanding their programs, Mrs. Davis said.

As a preparedness measure, thousands of women throughout the country are learning mass feeding and nutrition as members of the Red Cross Canteen Corps. Added thousands are being trained in the Motor Corps to serve as emergency drivers.
