WOMEN AND THE WAR
It will be too bad if you are allergic to milkweed because you may soon be sleeping on it. It is being tried out as a partial replacement of kapok in pillows, as well as in life preservers and heat insulating coverings.

You will just have to turn the rug around again and put the most threadbare spot under the sofa. Last week, jute for rug making was further curtailed; this week wool has been banned entirely for all floor coverings, drapery and upholstery fabrics.

Even wool that manufacturers had on hand cannot be put into process. The only bright spot for consumers is that all wool now in production will be permitted to be run through the civilian market.

If you can't get Bananas for dessert some evening, it may be because they have been used instead to launch a ship for victory. A subchaser recently went down to sea on a cushion of seven tons of bananas. With fats and oils in the critical material class, bananas have proved a worthy substitute for greasing the ways.

IT'S OUR 72nd ANNIVERSARY we're celebrating with values

Seventy two years in business, and again the world at war. A. M. Williams & Company was established in 1870 during the difficult post war years following the close of the Civil War in 1865. At the time of the Spanish American War in 1898 the company held its eighteenth anniversary, during the first World War of 1917, its forty-seventh anniversary, and now twenty-five years later, its seventy-second anniversary.

Each of the periods has had its own particular style trends, its own peculiar merchandising problems. We offer in this major event many fine lines of merchandise, much of it bought several months ago at prices we could not offer if the merchandise had to be purchased on to day's market. It will be an array of values we may not soon be able to duplicate either in price or quality. We pledge our selves anew to the task of acting as your purchasing agent, and recognize that the business, rich in tradition and historical background, is the outgrowth of what the people of The Dalles and its trading area have made it.

We dedicate ourselves anew to the important task of our community, and to back every soldier and sailor, and airman in the services of his country.
