Thursday evening, May 14, by the Rebekah lodge.

Mr. and Mrs. Don Smith and son Larry of Bonneville and Mrs. Arch Zehmer of The Dalles spent Sunday visiting relatives here.

One of those present when Gypsy Rose Lee pulled a burlesque in Portland recently, reckons she ought to run for Congress on the nude deal ticket.

"She certainly knows," sez he, "how to put a motion before the house."

Repartee: Something you think of on your way home.

DEPENDABILITY

In these times more than usual it is important to have a dependable grocer-- In wartime prices and quality and even quantities are subject to change.

Quality here will be good, prices will be fair and quantities what is allowed.

Zeigler's Quality Store Grass Valley

From where I sit...

by Joe Marsh

MAYBE I shouldn't admit it, but there are a few things about this writing job I really like.

For instance, I like the part where... after all the writin' and the routine is done... I just set back and think about things in general. (Oh, yes, that's part of the job, too.)

Doesn't matter much what I think about. Sometimes I concentrate on one thing. Sometimes I think of lots of things, one right after the other.

After all... when you stop to think about it... beer is a simple, natural thing. I read somewhere that all it's made of is good, wholesome farm grains and water and a little yeast... with hops for flavor. Nature's process of fermentation and the age-old art of the brewer does the rest.

I guess that's why beer is so wholesome. It really is the beverage of moderation. You just can't imagine anybody getting into trouble drinking a few glasses of beer.

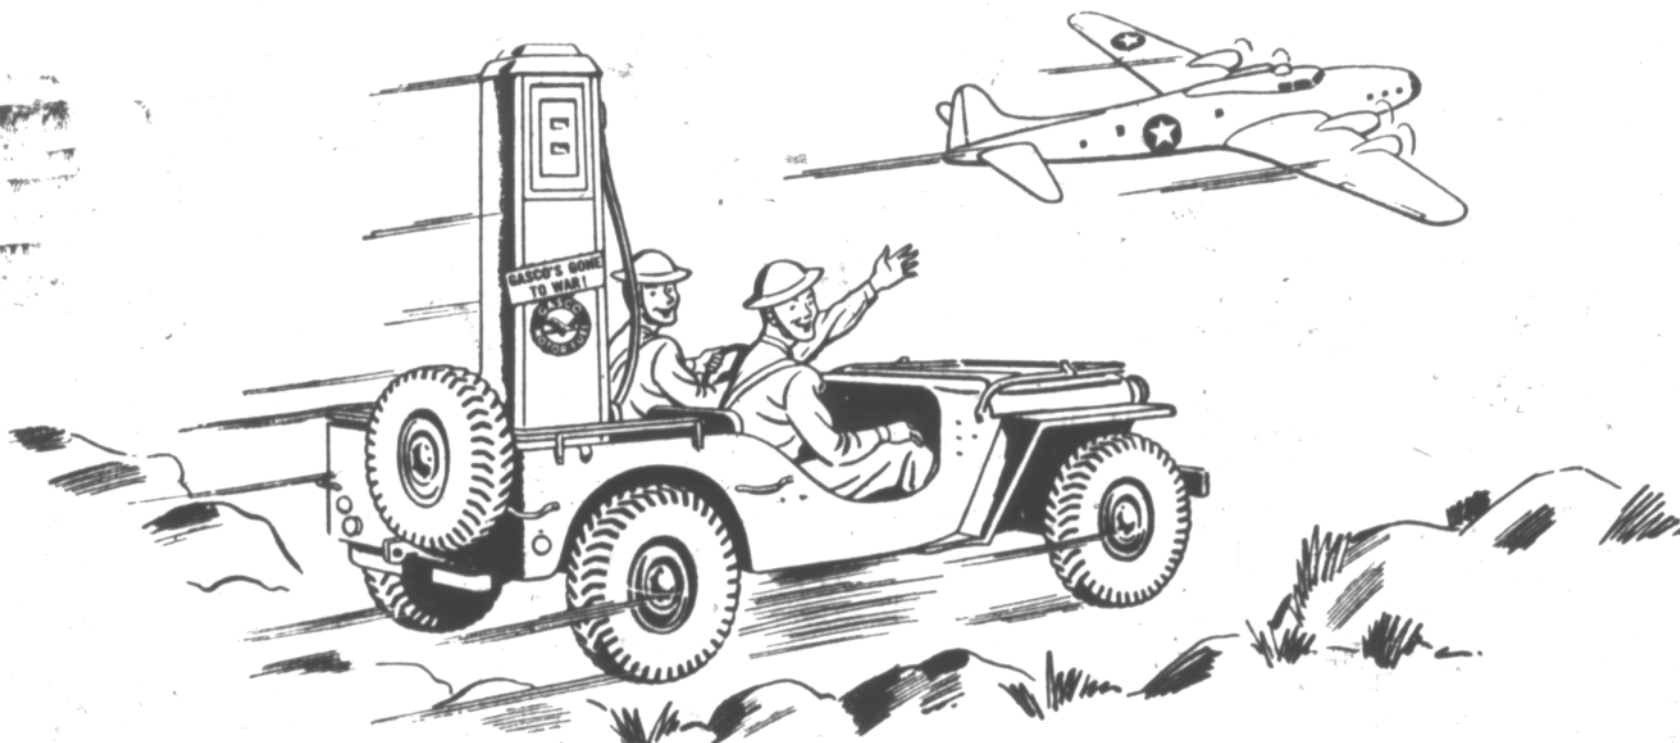

Well, here I am... going on and on thinking and talking about beer. Probably could go on for hours. That's the way I am when I set back and get to thinking about things.

And by the way, taking it easy and "just thinkin'" is fun. Try it sometime... quiet and comfortable like.

GASCO'S Gone to War

U. S. Flying Forces and Synthetic Rubber Tires Get the Vital Benzene of Gasco Motor Fuel

● Gasco contains benzene, and because it does, we have enlisted every gallon for the duration.

Now, by adding Gasco's benzene to 100-octane aviation gasoline, which itself tops anything now being used by the Axis, we can give our pilots an even more powerful aviation fuel.

For lightning-fast U. S. fighters, this benzene blend will mean still faster take-offs to meet the enemy, still faster climb in dogfights. For our long-distance bombers, it will mean reserve power for taking off

with heavier bomb loads than ever.

Gasco's benzene has one other big war job. Transformed to styrene, it will team up with butadiene to make synthetic rubber. So you may be riding on Gasco even before it returns to your automobile as fuel. Until it does, the Gasco pumps of Shell dealers will offer you Shell Premium, a gasoline that delivers today's top performance in cars.

We know our Gasco customers will be just as proud as Shell to see Gasco take on these important wartime duties.
