DEPENDABILITY

In these times more than usual it is important to have a dependable grocer-- In wartime prices and quality and even quantities are subject to change.

Quality here will be good, prices will be fair and quantities what is allowed.

From where I sit...

by Joe Marsh

You ought to meet my friend, Will Dudley. I suppose Will must be seventy-eight or nine... but you'd never know it. He's tall and lean and hard as a hickory. And although the only formal education he ever had was a few winters in the old red schoolhouse, I think that he's the wisest man I know in many ways.

For one thing, Will taught me the value of what he calls "Just a-settin'!"

Come upon Will in the evening, when his hard day's work is done, and you'll find him "Just a-settin'," in a rocker on his porch. In one hand he'll have his old briar pipe and in the other, a tall cool glass of beer.

"Wholesome, appetizin' beer," says Will, "is standard equipment for proper settin'. Puts a feller in an easy-goin' peaceful mood."

You see, Will holds the theory that in our present mixed-up world, a man needs a quiet hour every day. An hour in which to sit down

quietly and restore his strength and courage.

Will thinks, and I agree with him, that a man ought to forget all his own and the world's worries during that hour-of-peace. And Will feels that a glass of fragrant melow beer helps most to bring you quiet relaxation.

Show me the man who sits down quietly of an evening with his glass of beer and I'll show you a man who is wise in the ways of living. Such men, like Will Dudley, live to a ripe old age, untroubled by the troubles of the world. They seem to remain, all their lives, sweet-natured and kindly.

Time has a way of rendering accurate judgments on the value of the things men use and enjoy in the world. And Time... thousands of years of it... has handed down the verdict that beer is a pleasant and worthy companion for all men of good will.

And there's one very good reason...they like it! They like the comfortable, livable rooms, they like the food in the coffee shop and dining room, and they like the friendly atmosphere. You will, too!

We've come a long way in Electric Rates, too!

BUSINESS MANAGEMENT made these amazing reductions in your electric rates without any help from the public treasury! Pacific Power & Light has put up all the money for its power plants, transmission lines and substations, and has taken all the risks of pioneering and development.

Instead of receiving a tax subsidy, PP&L has already paid over \$10,000,000 in taxes. This year alone its rapidly increasing tax bill will exceed \$1,000,000. You get lower and lower electric rates—government gets more and more tax money. Business management always gives a better bargain!
