Henry Morgenthau Jr., Secretary of the Treasury, today made public the official War Bond Quotas by States for the month of July, which places the nation on a Billion-dollar-a-month basis to aid in meeting the War cost. The above table also gives May War Bond sales in the various states in comparison to the May Quotas. (June sales by states will be available for publication shortly.) The percentage of Quotas range from 71.3 percent above quota in Utah, to 22.6 percent below the quota in Montana, but puts the nation as a whole above the \$600,000,000 total May quota. Vulnerable Alaska and Hawaii led all states in sale of War Bonds on quota basis.

"Everybody, every pay day ten percent" is the Treasury slogan which is expected to place one of the attractive new window stickers in every American home. "We're Buying at Least 10%" reads the sticker, printed in the national colors. The new window stickers and the new "10%" label button, which indicates that the wearer is investing at least ten percent of his income in War Bonds every pay day, are yardsticks of patriotism in the War Bond Drive.
