

# HAPPY NEW YEAR

This is the beginning of a new year, and a time when nearly everyone plans in some way to improve himself or his position during the coming twelve months.

The world expects much of America during 1943. Citizens expect much of America as well. Well they might. American industry is now ready after a year or more of adjustments and preparation. Production is now, and will be remarkable. There is management, supply ingenuity, labor.

Undoubtedly the best way to make this a happy new year for all of us is to win the war. We have the equipment to make the arms, the men to use them, the food to feed fighters and workers. Do we have the will to win? That can be determined by the manner in which all of us buy bonds to support the fighting men.

Nothing we can do will aid to make this a happy new year as much as actively aiding those endeavors that will bring an end to the war.

Buying war bonds will speed the day of victory. Buying war bonds will make a happy new year.
