THE OLD JUDGE SAYS...

"Judge, there's been quite a bit of talk going around about prohibiting liquor in various spots around the country... around the Army camps for one thing. What do you make of it?"

"Well, Henry, I size it up about like this. It looks to me like the folks who are doing the talking are shooting a little bit higher than most people seem to realize. Sort of like the salesman who gets his foot in the door and before you know it he's sold you

a bill of goods. Wouldn't surprise me a bit if what they're really aiming for is to take in the whole country again. We all know it didn't work the last time. All we got was bootleg liquor instead of legal liquor... plus racketeers, gangsters and the worst crime wave the country ever saw.

"Seems to me we've all got our hands full to win this war without starting up an argument we just got through settling a few years back."
