THE OLD JUDGE SAYS...

"You can't imagine, Judge, how much comfort Louise and I got out of reading that recent report made by the government on drinking habits in and around Army camps. If you hadn't loaned us your copy we'd still be worrying about our Jim... all because of those silly rumors goin' around."
"I'm mighty glad to hear that, John. As the report says, no Army in American history has been so orderly, so well-behaved,

so well-trained. Why, even on pay-night, there's very little drinking done. I was particularly interested in that part which said the Army, with an eye to its own problem, usually prefers to have its camps in wet communities rather than dry communities because wet communities can be regulated... dry communities with their bootleggers can't. It's just more proof that prohibition does not prohibit."
