

**SWEET OREGON** by Henry DeMoss

I'm thinking now of a beautiful land, Oregon, Oregon;  
With rivers and valleys and mountains grand, Oregon, sweet Oregon  
From the mountains' high peaks all covered with snow  
A swift limpid streamlet doth flow, by the home of my youth,  
Which I ever adore, Oh! Oregon, my home.

**Chorus:**  
Oh! Oregon sweet Oregon, my native home, I long for thee,  
Oh, native home, I long for thee.

I think of thy forests and prairies wide, Oregon, Oregon;  
The mines, the fish, and the ocean tide, Oregon sweet Oregon  
Where the mighty Columbia rolls down to the sea.  
And the pines gently echo the breeze,  
Like a beautiful dream to my memory comes,  
Oh! Oregon, my home.

I long to dwell in my mountain home, Oregon, Oregon;  
Away from the vales I would ne'er wish to roam,  
Oregon, sweet Oregon

I sigh for the beautiful harvest again,  
The fruit and thy calm gentle rain;  
May thy pure, balmy air e'er waft freedom's blest song,  
Oh! Oregon, my home.

The poem, Sweet Oregon, was written by Henry DeMoss while in California and was sung by the DeMoss Lyric Bards in many states. If the music is available it would be a most appropriate song for Sherman county crowds as would others of the DeMoss Lyric Bards in many states.

**Loan Rate On Wheat Set At \$1.32**

The loan rate on wheat has been set by the government. It is \$1.32 per bushel on a basis of No. 2, soft white, Portland. This means a price that should average around \$1.25 in this county depending somewhat on quality. Rex will carry a price four cents under that of other wheat this year.

**THE OLD JUDGE SAYS...**

"How about joinin' us in a game, Judge? ... I'll drop out for a while."  
"Sorry, Phil, but I can't today... I'm on my way up to the hospital to see how Frank's wife is coming along. I just dropped by to give you the answer to that question you asked me about synthetic rubber yesterday in the barber shop. I looked it up and found out that the beverage distilling industry's facilities for producing grain alcohol make it possible to include 200,000 tons of rubber from grain in the government's 870,000 ton synthetic rubber program."  
"I also verified the fact that no distiller is making whiskey today. They all stopped making whiskey last year and are working night and day, 7 days a week, producing war alcohol for the government... for smokeless powder, chemical warfare materials, medical supplies, as well as for synthetic rubber. It's a mighty good thing these distilleries were in existence ready to do this important job."
