AMERICAN HEROES

BY LEFF

Captain Anthony Hellub manned the top turret guns of his biplane to return the fire of the Jap air attack on Clark Field in the Philippines. Exposed to strafing attacks the New Mexico plane ran across the field for more ammunition when it was exhausted. He was ready to sacrifice his life to keep the plane in the air. Can you invest in Payroll Savings?

TALK ABOUT RADAR NOW WORRY TO GOVERNMENT

The extent of current public discussion of radar is causing increasing concern to the Government.

The principle of radar is generally understood here and abroad, and some limited disclosures have been made officially. New methods of applying the principle are being developed, however, and there is much the enemy does not know.

The fact of prior publication should not be used to cover additional description, discussion, and deduction, or to support a theory or draw a conclusion.

Radar is a secret weapon with

in the meaning of the Code. Editors and broadcasters are especially requested to be alert to every mention of radar and military electronic devices; to establish beyond all question that there is appropriate authority for every statement made; and to submit all material on the subject—other than that released by appropriate Government authority—to the Office of Censorship for review in advance of publication or broadcast.

So inclusive a request would not be made if the highest considerations of national security were not directly involved.

Back the attack by upping your payroll savings your very next payday. Measure your savings by your new higher income.

Give him a break!

Evening is about his only chance to telephone home. He can get through easier if the wires aren't crowded — and his calls mean so much to him and the home folks. So please don't call Long Distance between 7 P.M. and 10 P.M. unless your calls are really necessary.... Many thanks. Buy War Bonds for Victory
