No, these are not Russian or Polish war orphans. They are right here at home. Their father, who was an automobile mechanic, is in Europe now, repairing American tanks. Their mother is in a war plant. Every night they sit here and wait her homecoming—and dinner. Your dollars can support playgrounds, equipment and care for them through one of your local welfare agencies. Would you rather have a new evening gown?

Let your heart decide

A merchant seaman has been dragged back to life from an ocean of flaming oil. He has lost all of the little possessions that sailed with him. He is given warmth and comforts and strength to fulfil his desire to "ship" again by your dollars. Would you rather have bought a new radio?

Let your heart decide

**Let your heart decide**

DOLLARS can be cold and selfish things. Or they can be generous, compassionate and merciful. Turn over the spending of some of your dollars to your heart. It will want to give twice what your logical mind intended to give, because your heart understands the mercy, the relief and the pleasure that these dollars bring. Let your heart decide.

This Chinese baby didn't have much, but yesterday it did have a straw shelter, a crude cradle and two parents to care for it. A screaming Japanese bomb destroyed them all. Your dollars can bring this baby back to a useful life in the new China to come. Would you rather have a new chair in the living room?

Let your heart decide

Remember this soldier? You saw him on the USO posters last year. His smile comes straight from a USO clubhouse. One of the finest things civilians have done in this war is in building and supporting the USO. Boys come into the army from farms and cities—a little lonely—a little homesick. The USO provides friendship, entertainment and hominess. Some of your dollars are spent through the USO. Would you rather have bought yourself a few theatre tickets?

Let your heart decide
