How Castaways Fish for Food

No longer do castaways on a life raft need to fear starvation and thirst. A simple, compact, complete, and fool-proof emergency fishing kit is now standard equipment on all life-boats, rafts, and planes of the Navy, Army, and Merchant Marine. Hooks, lines, lures, spear, bait, and a net provide the means to catch food. The fish shown has been snagged in the back by treble-gang hooks from the kit.

John and Gordon Hilderbrand were the guests of Fred Anderson Sunday.

Mr and Mrs Owen Barnett stopped in The Dalles Monday.

Mr and Mrs H H White have been quite ill with the flu.

MORO HIGH SCHOOL NOTES

By Gloria Douma
Moro High School resumed studies January 3, this time to finish off the last half of the school year.

The Moro Huskies defeated the Maupin Redskins Tuesday, December 21, on the Grass Valley floor. The teams made the game very exciting by many wild passes and inconsistent ball handling. The Huskies were behind at the half, but within a few seconds after the start of the last half Moro seized the lead and run up the score to read 28-21.

Dale Younger has joined the U. S. Navy and is now taking training at Farragut, Idaho. Dale is the third Moro student to join the service since the outbreak of the war. The others being David McLeod and Jim Robinson.

Moro Huskies will play their return game with the Redskins, Friday night, January 7, in the Maupin gym.

Condon's Blue Devils will arrive at Moro Saturday night to play their first game of basketball with Moro.

Tickets are on sale at the hotel for the junior play "Headed For Eden", which is to be given January 14, in the Moro gym. Reserved seats are 55 cents with general admission 40 cents and 25 cents for children.

PRICE STABILIZATION FOR CATTLE CONSIDERED

More complete details regarding the cattle price stabilization program indicate that it consists of both price supports and price ceilings associated with subsidy payments to slaughtering establishments, according to information received from official sources by the agricultural extension service at OSC. The subsidy payments are contingent upon the slaughterer paying average prices within the maximum and minimum prices allowed for each grade of cattle within each of several geographical "zones".

Zone one includes markets in Oregon—Washington, and California, except Spokane, and the maximum prices announced are \$16.75 for choice grade, \$15.95 for good, \$13.70 for medium, \$11.65 for utility, \$8.80 for canners and cutters, and \$10.15 for bologna bulls. The minimum prices are \$15.75 for choice grade, \$14.95 for good, \$12.90 for medium, \$10.15 for utility, \$7.30 for canners and cutters, and \$8.65 for bologna bulls. The maximum and minimum prices at Spokane are all 15 cents lower than the foregoing.

Slaughterers who pay average prices within the range of the maximum and minimum prices for each grade in their respective zones will be entitled to receive the full subsidy allowed; but if the average paid is higher or lower the slaughterer will suffer deductions according to the

POST OFFICE APPOINTMENT UP FOR EXAMINATION

The basic subsidy payments announced per hundred live weight are \$1.00 for choice, \$1.45 for good, 90 cents for medium, and 50 cents for the lower grades. In addition, a special subsidy payment of 80 cents per hundred live weight is authorized to certain "nonprocessing" slaughterers.

The Office Price administration and the War Food administration administer the program jointly and have announced standard dressed carcass yields for each grade. These are at least 61 per cent for choice grade, 58 for good, 56 for medium, 54 for utility, 45 for canners and cutters, and 53 per cent for bologna bulls.
