THE OLD JUDGE SAYS...
"Somethin' special catch your eye in the paper, Judge?"
"Sure did, Chet...an article here telling about prohibition in India being written off by the Madras government as a dismal failure after a three-year trial. They found out that enforcement was ineffective and that there was a steady increase in bootlegging and other violations of the law which increased penalties failed to check."
"It all goes to prove what I've said time and time again, Chet...prohibition does not prohibit. It's been tried in this country 47 times in the last 33 years and discarded everywhere except in three states. Was found to be a failure and abandoned in Canada, Norway, Sweden, Finland and Russia, too."
"Same thing happens every time...as soon as legal liquor is voted out, bootleg liquor with its crime and corruption moves right in."
