From where I sit... by Joe Marsh

You hear a lot of talk about morale these days... but have you found many people who knew exactly what "morale" was?

Well, I was thumbing through my scrap book the other day, and I came on this verse I'd like to pass on to you...

It's the grin you get from a friendly smile... A broad new hat in a jaunty style... A letter from home that the post-man brings... Morale is a lot of little things.

Isn't it so? Morale is just a lot of little things. A flower in your button hole, a word of greeting, an occasional refreshing glass of beer with friends.

From where I sit, if we take care to preserve these little friendly things that boost morale, we'll be doing a lot to help our country in its time of crisis. And we'll boost morale among our soldiers at the front, too. Because it's these "important little things" that they look forward to returning to.
