WPB OKs SHOES

Here's a fashion footnote. The War Production Board has just authorized the manufacture of two-tone shoes using part leather and part fabric. For this type of footwear, not more than 30 percent of the whole upper material can be leather. Use of leather with fabric in uppers will result in considerable savings of leather. Two-toned shoes have not been produced since September, 1942.

YOUR Caterpillar Dealer SAYS:

DON'T LET YOUR HORSEPOWER LIMP

Your tractor, like a well-shod horse, works to pack efficiency when tracks and rollers are in tip-top condition.

Turning pins and bushings and changing roller positions are some of the methods we employ to keep your tractor power well shod.

Have us inspect your tractor's tracks now.

CIVILIAN FOOD SUPPLY FAVORABLE

The civilian food supply for the next few months appears to be more abundant than for the same period last year, the Department of Agriculture reports. Potatoes and cabbage head the list of really abundant foods over most of the country. Other products include, carrots, spinach, beets, peanut butter, shell eggs, grapefruit and small oranges, frozen vegetables, and canned peas and tomatoes.

We want to express our appreciation of the friendships made, of pleasant business relationships and profitable trade while we operated the Wasco Bakery. We ask the same friendly support of our successors.

MARTHA AND LEWIS HASTINGS

This is no time to lose your memory!

IN NEARLY ALL Americans there's a streak of natural optimism. We know the war won't be over tomorrow. We know there may be a long hard fight ahead. But we can't help looking forward to the beautiful and wonderful-seeming days of Peace. This is all right unless... Unless it makes you relax your efforts to win the war... Unless it makes you lose your memory of what happened after the last war was won.

Don't lose that memory now. Don't forget the depression... the poverty that hit the farmers... the breadlines in the cities... the soldiers looking, looking, looking for jobs, and not finding them. Remember that Peace brought difficult economic problems, economic stresses. And this time, we must be ready to meet them. This time we must make sure of having a real financial cushion... to ease the transfer to normal peacetime business, peacetime employment, peacetime living. That's one big reason why you should buy War Bonds... and hold on to them.

Every War Bond you buy, every one you hold to maturity will keep bringing you \$4 for every \$3 you invest today. And that steady flow of buying power will make jobs. It will create markets for peacetime goods. It will do a lot to insure an America that's prosperous and sound... the kind of America we all want when this war is won. So let's not forget the lesson of World War I. Keep buying Bonds. Keep hanging on to them. They're your security... your Country's security... for the days of Peace!
