Your check from PP&L will be mailed early next week!

Watch for it!  
It's your share of the \$300,000 "rate dividend" we're paying to our electric customers!

YOUR CHECK will come in the same type of envelope used for mailing our bills. You will notice, too, that the check itself is the same size and shape.

The reason for this is that these checks—75,000 of them—were made out on our regular book-keeping machines in order to get the job done quickly and efficiently. You can imagine what a long, slow job it would be to write so many checks by hand.

We are glad to share with our customers in this way the benefits of the extra volume of business resulting from unusual wartime demands for electricity at many points on our system. This is just one more step in our 34-year record of consistently reducing the average price you pay for electricity.
