Donald Martin had a horse fall with him a couple weeks ago and his left leg was pretty sore for a few days, but the swelling went down and Donald kept on working, driving truck loads of cattle to Portland and doing other farm work. Finally he went to a doctor to find out why his leg was still hurting and found that one bone in his lower leg was broken. It is now in a cast and Donald is on crutches.

### 35 GETS TO 50 ON OREGON HIGHWAYS DESPITE WAR

Closer observation of the wartime speed of 35 miles an hour was urged today by Bob Farrell, Secretary of State, who declared that reduced speeds would save dwindling gasoline supplies and increase wear on tires.

Speed checks made by state highway department showed that during the first three months of the year, 85 percent of the drivers on the Pacific Highway travel at speeds of 50 miles an hour or under, Farrell said. Only about ten percent of the drivers limited their speeds to 35 miles an hour.

"Conservation of gasoline, tires and the prevention of accidents are necessary to the maintenance of essential civilian highway transportation," Farrell declared. "High speeds use up more gasoline and oil and cause greater wear on tires. Speed also increases the accident hazard and the severity of accidents at speeds of 50 miles an hour or over is far greater than at speeds under 35 miles an hour. "In the interests of efficient highway transportation and safety, every Oregon driver should be willing to observe the wartime speed of 35 miles an hour."

### MAY MOISTURE MISSING

The month of May was one of the driest on record there being but .16 inch of rain during the entire month. As dry as it was several years have let May go by with less rain. In 1937 there was but .03, in 1938 .11, in 1934 but .07 and in very good 1928 but .09. Even in 1943, which was a pretty good year only .35 inch fell in May. However to start off the month of June 22 inches fell.

It may be reasonable to expect a partial lifting of gasoline restrictions because it is almost impossible to make the stuff that comes out of gas pumps burn anyway.
