**ATTENTION! HOME CANNERS!**

Before you begin your 1944 canning, Good Housekeeping Magazine advises you, use the boiling-water bath method for tomatoes and fruits, only. Can all vegetables except tomatoes by the correct use of a pressure cooker to be sure of killing botulinus germs. In the last years, cases of botulinus food poisoning have cropped up in widely different parts of the country. Buy, borrow share a pressure cooker—but don't can low-acid vegetables any other way. If you want further information, write Good Housekeeping Magazine, 969 Eighth Avenue, New York 19, N. Y.

THE OLD JUDGE SAYS...

"I don't blame the fellows overseas for gettin' all het up over it, Judge. For the likes of me I can't see what's all the hurry about holdin' these local prohibition elections while they're away."

"I agree with you, Steve. Time after time...in their letters, in articles, in polls taken to get the views of our fighting men... they have indicated in unmistakable terms that they don't want any action taken on prohibition, either local or national, until they get back."

"Too bad there isn't a law or somethin' to be sure their wishes are carried out, Judge."

"There is in one state I know of, Steve. Just recently it passed a law prohibiting the calling of any prohibition election until a year after the peace is declared."

"That really makes sense to me, Judge."
