FOUR YEARS AGO, Hans WAS IN OUR SHOES

Hans is a German. Four years ago, he felt the way many of us feel today. He thought the war was as good as won.

He had reason to think so. Far more reason than we have. France was his. England was bloody after Dunkerque. The German Army seemed invincible.

But the war wasn't almost over. And now it is our armies that are on the march. It is our bombers blasting German cities. Victory is in our grasp. It's up to us to see that we don't let it slip through our fingers the way Hans did.

Most of us know that this is the military crisis of this war—the time when our fighting men must give everything they have, not once in a while but hour after hour—day after day.

But this alone is not enough. The lives of brave men are not enough. Money is needed too.

For this is the financial crisis of the war just as surely as it is the military crisis. Millions of dollars' worth of equipment is being destroyed. The money to replace it must come from us, quickly.

If every last one of us here at home will try to match the constant, day-to-day drive of the men who fight our battles, we'll raise that money.

The way to do it is to put every cent we can possibly invest into U.S. War Bonds. Not some of us. All of us. Not once in a while during a drive, but regularly.

Can we do the job that Hans couldn't do? It's up to you.

And here are 5 more reasons for buying Extra War Bonds!

1. War Bonds are the best, the safest investment in the world!
2. War Bonds return you \$4 for every \$3 in 10 years.
3. War Bonds help keep prices down.
4. War Bonds will help win the Peace by increasing purchasing power after the War.
5. War Bonds mean education for your children, security for you, funds for retirement.
