And Now... ANOTHER Cash Dividend On Your Electric Bill!

TO THE UNITED STATES NATIONAL BANK
PORTLAND, OREGON, OCTOBER 3, 1944
PAY: EXACTLY \$300,000.00
ALL PP&L CUSTOMERS
PACIFIC POWER & LIGHT COMPANY

TO PP&L CUSTOMERS EVERYWHERE:

Last April, as you remember, we announced a "rate dividend" to all our electric customers, in the form of individual checks for approximately one-half of their average monthly electric bills. The total amount, all over the PP&L system, was \$300,000.

Now we are glad to notify you that another rate dividend check will be mailed to you as soon as possible after the end of September. It will make a total of \$600,000 of savings to our customers during 1944—the equivalent of a full month's electric service free.

It has been our wartime responsibility to supply efficiently every need of the military establishments, the industrial plants and the civilian population on our lines. Naturally, this abnormal demand for power has increased our total volume of business.

With the approval of the Washington Department of Public Service and the Oregon Public Utilities Commissioner, we feel that the fairest possible way to share the revenue from this extra business, while it lasts, is to distribute these "rate dividends".

The cost of electricity in homes on the PP&L system is about half of the national average. These two rate dividends reduce it about 8-1/3% further for 1944. As a taxpayer, you will be gratified to know that we have paid constantly increasing taxes while reducing rates, and that we have never drawn a dollar of subsidy from your public treasury.
