## Remember the Apple Days?

Remember those grim days during the Great Depression when men who couldn't find work stood on street corners selling apples?

Many of those apple peddlers had been prosperous... had had good jobs. They'd been making extra money... just as you are today. But the trouble was; they thought things would always be like that.

The best way to make sure that you will never be a street-corner peddler is to put your extra money into War Bonds.

War Bonds are the best investment in the world. Every \$3 you put into them today will pay you back \$4 ten years from now. And... best of all... you can never be broke while you've got a sheaf of War Bonds in your pocket!

Are you making that mistake today? Or are you saving your extra money so that no matter what happens after the war you will have some money you can get your hands on?

So buy War Bonds... and more War Bonds. And hang on to them!

Quality Store GRASS VALLEY

How can a motor oil save gasoline?

Much gasoline loss is caused by gradual ring and cylinder wear. Gas mixtures then "blow-by," compression is reduced, performance gets rough. RPM Motor Oil slows this wear "way down" — sticks tight on hot or cold metal surfaces, insures cold motors against extra starting wear, protects critical hot spots on long runs. For more mileage, less wear — use Standard's RPM Motor Oil.
