**Burner Oil Users... WAR ON WASTE!**

Oil fights for freedom... every possible drop must be conserved for essential war use. Here's how you can do your part to save and serve.

**7 Practical Ideas for "Waste Chasers"**

1. Avoid overheating. 65° is recommended.
2. Weatherstrip doors and windows.
3. Close off unused rooms.
4. Make sure thermostat is accurate.
5. Close fireplace damper when not in use.
6. Lower heat at night or when away.
7. Keep humidifiers full.

# \$86,000 worth of smoke

You don't do it with hay, brother!

It costs 86,000 good hard American dollars to lay a smoke screen on a 20-mile beachhead for a single hour.

Worth it?

What would you think if you knew your life depended on reaching that beach without being spotted by the enemy?

You'd-be mighty glad that — in this war — everything is being done to give the American soldier the best possible chance to live and win... money no object.

You wouldn't have it otherwise, would you?

Then remember — you've got to do your part by buying and holding War Bonds. Your dollars are needed to help lay the smoke screen... provide the "softening up" bombardment... flatten the deadly pill-boxes.

That's what your War Bond money does right now.

And in the future it will do still more... both for you and for your Country.

War Bonds are your safest, and smartest, investment. In ten years, they'll bring you back four dollars for every three you put in. And that money will mean purchasing power... for you. It'll mean jobs and a healthier economy in America.

So buy more Bonds than you've been buying. Buy more than you think you can afford.

They help toward a quicker Victory... and a happier peacetime for you.
