William Smith of the Seabers who recently returned from the Aleutians arrived Monday to see the Lester Smiths and Clyde Smiths.

Grass Valley is pretty well deserted since deer hunting started.

Let all your views in life be directed to a solid, however, moderate, independence; without it no man can be happy, nor even honest. —Junius

It is easy in the world to live after the world's opinion; it is easy in solitude to live after our own; but the great man is he who in the midst of the crowd keeps with perfect sweetness the independence of solitude. —Emerson

If a man has acted right, he has done well, though alone; if wrong, the sanction of all mankind will not justify him. —Fielding

SALES TAX

Continued from page one. county were short of funds and real property owners had difficulty paying their taxes. Now the state is rich in tax funds. The history of sales taxes is that they soon become an additional tax, instead of an offset tax.

This county would receive very little from the twenty percent that is set aside for old age pensions for we levy little for that fund.

Farmers have bought little for years and would now like to replace much of their machinery. This sales tax would cost them a great deal. The state income tax is already very low under the plan to turn back a part of it if not needed.

Argument for the sales tax is that it would catch those who are in the state and paying little or no tax. They probably are less than ten percent of the population and receive considerably less than ten percent of that income.

It seems clear that this tax at this time would cost this county more than we would receive.

MORO NEWS

Mr and Mrs John Posa were in Spokane the first of the week to attend the funeral of Mrs Byron Hawk, a cousin of Mrs Posa. Joe Belanger left Wednesday after having seeded the trashy fallow field trial on the Moore place. Joe found plenty of moisture, he says, and the grain sprouted in a few days. Seed was placed as deep as six inches in the ground with the type of drill used, but was not covered very deep.

I will not be responsible for debts contracted by anyone but myself, Robert Rohde. 48p

Louis E. Langford has bought a place on Chenoweth creek west of The Dalles and is moving to that place immediately. He has sold his fruit farm near Rufus to Walter Morris who will continue to raise and sell the peaches, apricots,

and tomatoes Mr Langford has Washington by the government been bringing through this county air service for which he works. Mr and Mrs Jack Eva expect to move on to Victoria and Vancouver B. C. Byron Peetz has been moved on to Victoria and Vancouver B. C. from Brownwood Texas to Olympia before returning to the ranch.

Her audience is carried in!

NO standing room—for her audience cannot stand. In cots, in wheel chairs, on crutches they come. Eager, hopeful, mending men.

She plays the hospital circuit. She is one of hundreds of entertainers provided by U.S.O. Camp Shows. Others play the "Fox-hole Circuit" in the South Seas . . . or the snowy wastes of Alaska and Iceland.

YOU are one of the important "backers" of this vast playbill. Your dollars given through your local Community War Fund make it all possible. Part of your gift goes to the U.S.O., part to merchant seamen through United Seamen's Service, part to War Prisoners' Aid. Add part of your gift

must stay here at home to fight juvenile delinquency, sickness and poverty on the home front through our own local agencies.

A lot of needs for your dollars to cover. How much shall you give? Turn the matter over to your heart—today!

A "SECRET WEAPON"

the Navy shares with you

To lubricate Uncle Sam's submarine Diesel engines so they run clean and smooth on long cruises, the Navy uses RPM DELO.

The Navy is sharing this "secret weapon" with the home front . . . and RPM DELO is doing a great job in thousands of tractor, truck, marine and stationary Diesel engines. It's specially compounded to prevent sludging and gummed-up pistons—it actually cleans and frees rings stuck through use of other oils. Millions of test miles in laboratories and actual service proved that it just about **DOUBLES THE TIME BETWEEN OVERHAULS.** The Navy can't afford to take chances with its fighting Diesels—and neither can you. Get RPM DELO and you get the all-around lubricant for all Diesels.

THE OLD JUDGE SAYS...

"It sounds almost like a miracle, Judge... how did we ever do it?"

"American industry did it, Sally. When the Japs conquered the chief natural rubber producing centers of the world they thought they had dealt a death blow to our war effort. But, in less than two years, we are producing enough synthetic rubber in this country to supply all our military and essential civilian requirements.

"Our rubber experts knew how to make it, but the most practical process at the time required huge amounts of industrial alcohol... far beyond the already overtaxed capacity of our industrial alcohol plants. So, overnight, our country's beverage distillers stopped making whiskey and produced hundreds of millions of gallons of the vitally needed alcohol.

"As a matter of fact, Sally, a high government official said recently... synthetic rubber is from 6 to 9 months ahead of where it could have been if alcohol had not been available for butadiene production."

"We were really fortunate, weren't we Judge, to have a beverage distilling industry in existence... able to help perform this great wartime miracle!"
