When's the next time you'll be broke?

Hard to say, isn't it?

In fact, you haven't given it much thought. Things are going well now. The job pays fine, and it looks as if it will last forever.

But suppose it doesn't? Suppose, in the years after the war, you find things slowing up. What then?

Sure... maybe a good man can always get a job. But isn't it a great thing to have a nice soft cushion to fall back on if and when things don't go right?

And right now, if you're in the Payroll Plan and tucking money away regularly, week after week, you're fashioning the best kind of cushion you can possibly have, a big wad of money invested in War Bonds.

Here's why:

War Bonds are the safest investment in the world.

War Bonds give you \$4 back ten years from now for every \$3 you invest.

War Bonds are your stake in the good things of tomorrow—security, independence, travel, a decent old age.

And today, War Bonds give you a chance to put your money into the fight—the best reason of all!

Think that over. And when you get your check... chuck a good portion of it into Bonds... even though you're buying them already. Buy War Bonds—and hang onto them.

WAR BONDS
to Have and to Hold
