Although creamery butter is now up to 24 points a pound, there has been no increase in the point price of farm or country butter.

No collection of points is required for families who churn their own butter for home use, but if they sell a portion of it they are required to collect 12 red points a pound and turn them in to the War Price and Rationing Board.

Saturday Night - Moro School

The wires hum. It's a "31" order—important instructions for a train soon to arrive and for which the conductor must sign. The station agent sets the semaphore. The red light flashes its warning. The train arrives and rumbles to a stop.

This is just one of many safety measures established by Union Pacific to assure reliable transportation of passengers and freight. War resulted in a tremendous increase in rail traffic. As might be expected, a large part of that traffic has been directed over Union Pacific's "strategic middle route" uniting the East with the Pacific Coast.

Through constant vigilance and tireless effort on the part of employes, thousands of men and trainloads of materials have been moved efficiently and quickly to aid the Allied cause.

The constant improvements in railroading, resulting in safe, efficient transportation, are due in large measure to the American system of encouraging workers to seek advancement through personal enterprise and initiative. We're fighting and working to maintain that spirit of equal opportunity for all.
