# Will you hold a FAT-SALVAGE BEE for your country?

**HERE IN AMERICA**, when a neighbor needs help, it has always been the custom for all the folks to pitch in and give him a hand. Many a harvest would have been lost without the help of a husking bee.

**YOUR COUNTRY NEEDS** a fat-salvage bee right now! Millions of tons of fat have been used up to supply the thousands of battlefield and home-front needs in this war. And there's still a lot of war ahead!

**A PLEA TO EVERY WOMAN!** Our country is calling on you, the women in small cities and towns and on the farms, to save every drop of used fat. Your used fats are desperately needed to meet our country's requirements.

So scrape all pans and roasters. Skim soups and gravies. Keep your used fats in a tin can—any kind will do. Save meat trimmings and plate scrapings in a bowl; melt them down and add the liquid fat to your can.

When the salvage can is full, take it to your butcher. He'll give you 2 red points and up to four cents for every pound. If you have any difficulty turning in your used fats, call your Home Demonstration or County Agent.

**Needed this year: 100,000,000 more pounds of used fats**

Approved by WFA and OPA. Paid for by Industry

## THE OLD JUDGE SAYS...

**GEORGE:** "Yes, I certainly would like to hear why you call that an old fashioned man, Judge."

**OLD JUDGE:** "Glad to tell you, George. Until recently, a person known as an alcoholic was generally treated as a social outcast. Little if anything was done to understand him or help him. But, during the past few years, medical research and study has developed that alcoholics are really sick people... that there is usually a deep-rooted physical, social or emotional reason behind their behavior. That's why today so

much is being done to help them by finding out and correcting the condition that leads them to excess."

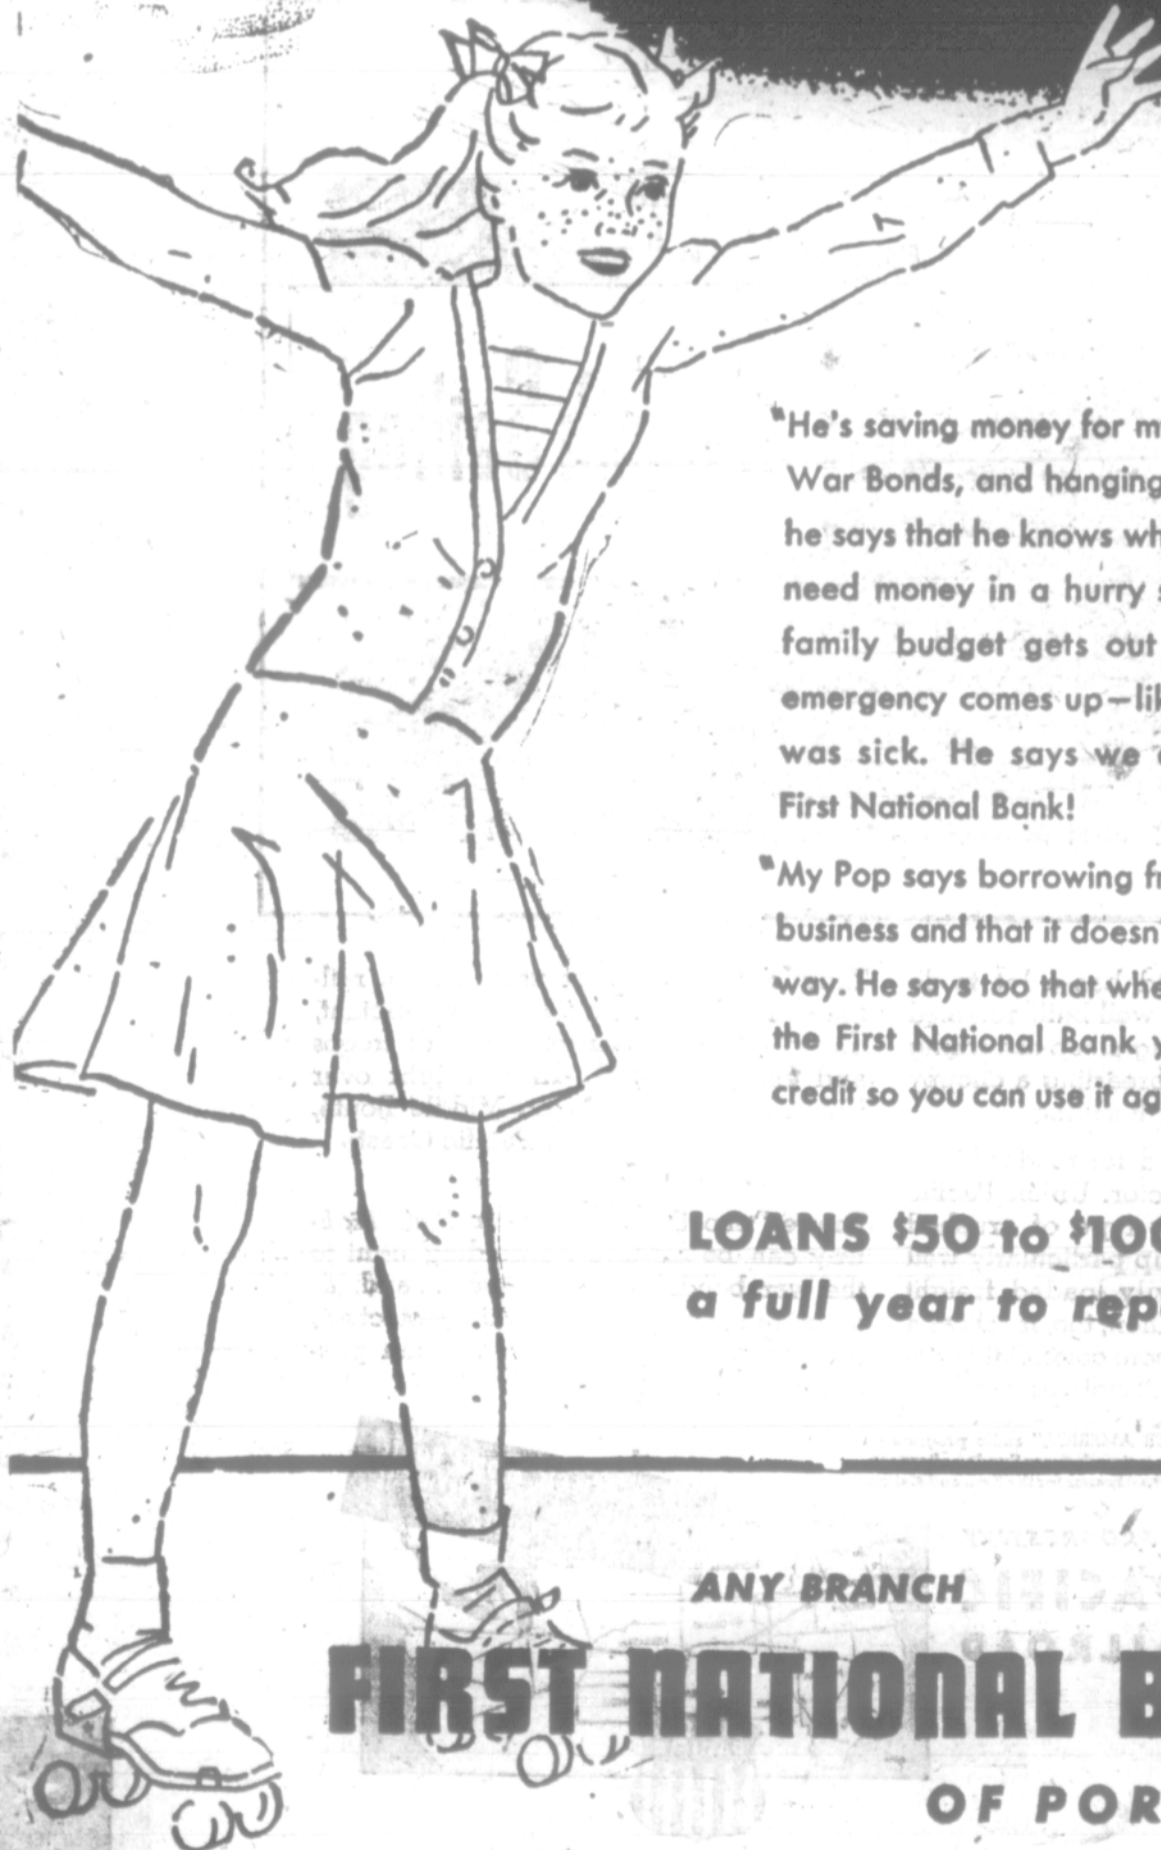

**GEORGE:** "How many folks are there like that, Judge?"

**OLD JUDGE:** "Well, according to scientific research, 95% of the people who drink, drink sensibly. 5% do so unwisely, at times. Included in that 5% is the small percentage of the sick people I'm talking about."

**GEORGE:** "That certainly gives me a clearer picture. It's the most sensible approach I've ever heard on the subject."

# MY POP'S A SMART MAN!

"He's saving money for my college by buying War Bonds, and hanging onto them too! But he says that he knows what to do in case we need money in a hurry sometime when the family budget gets out of balance, or an emergency comes up—like the time Granhy was sick. He says we can borrow at the First National Bank!

"My Pop says borrowing from a bank is good business and that it doesn't cost as much that way. He says too that when you borrow from the First National Bank you establish your credit so you can use it again if you want to."
