Work Done Well and Quickly

WEATHER WINDY

The weather has been generally favorable for the past week with wind prevailing most of the time. Temperature has gradually been getting higher and the favorable west wind has practically stopped completely Thursday afternoon. Some wheat is seriously damaged in spots and late sown wheat, especially spring grain, may not make much of a crop without continued cool weather or another rain, which appears to be no more than a possibility at present.

Walther-Williams Co.

Is an old established firm that has been selling, servicing and repairing cars for a generation. The dependability of its products and the quality of its service has been proven many times.

Now, when it is doubly important that you have good workmanship and quick service to keep your cars and trucks running, have us take care of your service problems.
