## KEEP THE JAPS IN THE DARK!

THE BIG PUSH IS ON  
IN THE PACIFIC....

Many of our fighting units from Europe are being transferred to the Pacific via the U.S.A. Most of them specialize in certain types of warfare and where they are going will be a clue to our plans.

TALK IS A MAJOR WAR PROBLEM. The discussion of war information by well-meaning, but thoughtless, Americans has sunk American ships... tipped off the Japs where our attacks would be made... warned them of secret weapons we would use.

Little facts betray big secrets. The whereabouts of one man can locate a division. His date of departure can disclose the sailing of a ship or convoy. His equipment can disclose where he is going, his training, the type of operation planned. The Japs gather every scrap of information, sort it, study it to learn our plans.

**LOOSE TALK  
DOES REACH TOKYO  
LET'S STOP IT!**

DON'T TALK OR WRITE ABOUT...

- 1 Locations and movements of men, ships and materials within, to, or from the Pacific-Asiatic area.
- 2 New weapons, even though you know they have been used against the enemy, unless officially released by the Military Services.
- 3 Military information gained in confidence.

Are There Japanese Agents in America?

**YES!** Jap spies have been caught red-handed. With our many thousands of miles of border and seacoast, it is impossible to completely prevent entrance and exit of enemy agents.

Do They Look Like Japanese?

**NO!** Too many people assume that they do. The Japs know that any agent who looks Japanese would be under immediate suspicion. They hire people of other nationalities, including Americans, to do their work.

Are German Agents Working for Japs?

**YES!** The Japs are desperate for information that will help stave off our final knockout blows. They will pay any price. German agents cut off from their own country are now operating for the Japanese.

Is Information Getting Out of Country?

**YES!** The Japs knew about the B-29 bomber six months before it was taken off the secret list. Time after time known leaks of information have resulted in Japanese action that showed their immediate knowledge of facts.

This statement has been prepared and released by  
BLITZ-WEINHARD COMPANY  
with the approval of the Oregon Committee for Security of Military Information
