USED FAT IS FARMHAND

Used fat helps to make the preparations a farmer uses to preserve his leather equipment. Fat saved at butchering time, from fallen animals and kitchen salvage comes right back to the farm in thousands of everyday preparations.

Uncle Sam Pins Orchids On Local Women For Saving Used Fats!

Things have really been happening to fat-salvage-collection figures since town and farm women got busy on the job! Latest official government records show that their fat savings have left the excellent record of city women way behind.
But it isn't a drop too much. This year, we face a shortage of 1 billion, 500 million pounds of fats in domestic supplies. Tons more of war and home-front supplies made from fats are needed! Farm folks get more meat these days than most city people—so it's up to them to save the fats. Skim, stew, soup, gravies. Scrape meat. Make down meat trimmings. It all helps you fill the fat-salvage can, and you get up to 4¢ and 2 red points a pound. If you have any difficulty, call your Home Demonstration or County Agent. Approved by WPA and OPA. Paid for by Industry.

"YOUNG MAN, YOU'RE DOING ALL RIGHT"

PACIFIC POWER & LIGHT COMPANY again slashes electric rates effective with meter readings on and after August 22. Time after time PP&L customers have benefited by rate cuts as shown in chart above.

This newest and biggest rate reduction means total savings of \$1,000,000 a year to PP&L customers—an average reduction of 14% to homes and farms, and 15% to commercial and industrial customers! These new low rates are brought to you by a business-managed power company—sustaining itself, paying its own way and shouldering its share of the common tax load.

Electricity is a bigger bargain now than ever—plan to enjoy MORE of its magic conveniences at the new low rates!
