WHAT EVERY WOMAN KNOWS...

Well, here it is 1955! And Tom in business for himself—already heading for a real success.

Set himself up with those matured War Bonds we bought back in the 1940's—four dollars for every three we saved originally. Back in 1945, even, we knew it would turn out this way. Buying all the Bonds we could. And saving them! Tom's a wonderful husband. And he deserves all the credit.

Well, almost all!

There was a time—that was back in 1945, too, I guess—when he needed a little help from me. I found he'd let down on his Bond buying. Not only that, he actually almost suggested we cash in a Bond or two to pay for something we wanted...

And that's where I put my foot down!

"YOU LISTEN TO ME, Tom Lapham," I told him. "Don't you know that the biggest difference between a success and a failure is that the success sticks to his plans? I don't want to be married to a man who hasn't the resolution (or maybe I said 'gumption') to stick off on what he knows is right! You're not going to sabotage our future!"

I guess every husband needs a wife dressing down once in a while! And thank heaven Tom listened to me!

We kept our Bonds—and bought more and more of 'em! First thing we knew, we had enough so we began feeling secure. That gave Tom confidence—helped him get ahead. And this year, enough bonds matured to make our dreams come true!

TOM'S A SUCCESS—yet he might have failed if I hadn't spoken. And, of course, he's forgotten. I wouldn't dream of reminding him—it's a secret between us girls.

MORAL: Think of your future—hang on to your bonds! And keep on buying more!
