

### Guadalcanal Battlefront of 1942 Now Peaceful Rear Base

The three years since August 7, 1942, when United States Marines landed on Guadalcanal to open the Pacific offensive, have produced many changes on that Solomon island. Now, Red Cross girls and Leathernecks (upper left) swim and sun themselves at leisure. A short time ago, swimming and bathing came under the heading of "hazardous occupations" and a Marine machine-gunner (lower left) guarded his buddies from Jap intrusions as they washed in Guadal waters.

The beautiful tropical beach scene (above) now provides a more peaceful setting for the quartet of Leathernecks who loll in the sun than it did for Marines who were on the same beach three years ago. At that time, the beach was covered with dead Japs, half-buried in the sand (below). The beaches are washed clean now—and Guadalcanal today is a rear base, far removed from the fighting front.

blanks to the Secretary of State's office, Salem, Oregon. The fee is \$1.00. Applications for titles received now can be acted on promptly, Farrell said, but during the license rush period, service from the motor vehicle department will be slower, due to the heavy volume of daily business in the office. For that reason, he suggested early application for trailer titles.

### TRAILERS NEED LICENSE

Motorists who have trailers that are required by law to be registered in Oregon were urged today to obtain titles for them at once, in order to avoid the rush period during motor vehicle registration time in November and December.

All trailers that must be registered must have titles, according to Secretary of State Robert S. Farrell, under provisions of a new law enacted at the 1945 State Legislative Assembly.

Trailers that must be registered are those over 750 pounds with a carrying capacity in excess of 1,000 pounds. Titles may be obtained by writing for application

### 4-POINT SAT HELPS

Synthetic rubber and thousands more essentials need used fast in their production. Every drop houses wives save and turn in some essential use. And every pound is new worth 4 red points.

## NOW 2 POINTS FOR USED FATS

Help Increase Supplies of Soap and Other Peacetime Products By Saving More Used Fats

Industrial fats far short of this year; we are almost down to the bottom of the barrel. The nation's industrial fat supply is millions of pounds less than it was in 1944. We need fully as much as last year to help make the soaps and other civilian goods you want and need so badly. So...

If you want more soap and soap flakes... if you're dreaming of nylons, sheets, cotton fabrics and want them to hurry back to the store counters... you can help by saving those used kitchen fats as you never saved before! Save every drop, every day!

These fats are vitally necessary to help speed greater supplies of soaps and hundreds of other things—like new cars, electric washers, irons, refrigerators and tires. Industry must have these fats... to help get to you more quickly the peacetime products you've been longing to have for years!

So skim and scrape and scoop just as you did so faithfully before V-J Day. To prove how important it is, your government has increased the point bonus. So help meet this nation's need by continuing to save used fats. If you can't find a store that accepts used fats, call Home Demonstration or County Agent.
