UNHANDY STUFF TO BE OUT OF
There's clothes line, for instance, lots better than a barbed wire fence on a windy day.
Electric light bulbs, Moses and the fresh out light, you remember
Iron cord, extension cord—right useful when you need to see.

And clothes pins, too, unless you use the fence, and canopeners are in style again since cans are back, and before we get crowded off this space, if you don't get an extension core be sure you get a flashlight.

\$400,000,000 construction program under way on the Pacific Coast

During the next five years, a four hundred million dollar construction program is planned to improve and expand telephone service on the Pacific Coast.

This program is already under way and is going ahead steadily.

In 1946 alone, more than 70 building projects, installation of eight billion feet of wire in exchange cable and construction of 200,000 miles of toll and long distance circuits are expected to be completed. Work will be started on the Western part of a nation-wide coaxial cable network for long distance and television transmission, and in the next few years many new services and improvements will be introduced.

For it is our purpose to grow with the West and to help the West grow—to provide an ever-widening, ever-improving telephone service.

Something to Remember
The flip of a copper penny in 1845 gave Portland, Oregon, its name. A settler from Boston, Massachusetts, and one from Portland, Maine, tossed for the right to perpetuate his home city's name. Today the Portland of the West is larger than its eastern namesake!

Something Else to Remember
The smooth, satisfying mellowness of Corby's! Only 11 years after the Portland coin tossing, Corby's started its glorious tradition in Canada as a grand whiskey name! Today, Corby's, a light, sociable blend, carries on this quality tradition. Ask for it next time!
