DVA Bureau Has New Bulletin

An informative bulletin explaining the operations of the Department of Veterans' Affairs during its ten months of existence and citing the laws under which it functions was released this week by Director Hugh E. Rosson, to veterans' organizations and newspaper editors.

The bulletin points out that the 1945 legislature which created the department also authorized county courts to appoint paid service officers. Since then, representatives of Rosson's department have called upon the report states, to encourage such appointments in view of the heavy volume of service work presently needed in each county and the certainty of its continuance during the coming years.

It adds, however, that the department has "no authority, desire or intention to participate in the selection of such officers," who are "responsible only to the county."

The bulletin says further that while the department has legal authority to act as attorney for veterans or their dependents, "it is not the policy of the department to solicit such powers

SOMETHING TO REMEMBER
Establishment of passenger and mail stage coach service into Idaho in 1864. These lines connected the Boise Basin with points in Oregon, Washington and Utah!

SOMETHING ELSE TO REMEMBER
The smooth, satisfying mellowness of Corby's! Even before Idaho's first stage coach service, Corby's was a grand old Canadian name which meant fine whiskey. Today Corby's, a light, scotch-like blend, carries on this quality tradition. Ask for it! Produced in the U.S.A. under direct supervision of our expert Canadian blender.

IT COSTS More TO BUILD AND OPERATE A POWER SYSTEM, TOO!

• Clothes aren't the only things that cost more these postwar days... everything that goes into construction and running a modern electrical system costs more, too. For instance, PP&L's average wage rates are up 44% since 1940... taxes are up 70%... the price of poles is up 100%!

...yet PP&L has cut average electric prices 30% in the last 6 years! It may be hard to believe, but check the records. PP&L's average rate for residential electric service is only about two-thirds what it was in 1940!

Expenses are higher, yet electric prices are lower. How is this possible? The answer is 36 years of electrical "know how"... efficient management... good hard work.

...now more than ever
It takes experienced business management to keep cutting your electric rates.
