BETTER THAN PRIVATE INVESTIGATION

There's an ancient way in which a purchaser might satisfy himself of clear title to land. That is through an exhaustive review of all deeds, wills, marriages, heirships and other documents by which the property has been conveyed, mortgaged, leased or transmitted over a long period of time. The purchaser of land who protects himself with a Commonwealth Insured Title avoids this endless detail, knowing, too, that no flaw will exist in the title to cause loss.

One always stands out

* The HALF MOON, Hendrick Hudson's ship, sailed on September 3, 1609, up the river which bears its skipper's name. Because of the detailed report of the area made by Hudson during this trip, Dutch authorities decided to colonize the New York bay area. But for the voyage of the sturdy little Half Moon, New York City might never have grown up on Manhattan Island!
