GRANGERS SHAPE THE PATTERN of OREGON'S DEVELOPMENT

Livestock is big business in Oregon—and Grangers have a big stake in the industry. According to the bureau of agricultural economics, Washington, D. C., gross farm returns in Oregon from livestock and livestock products for the year 1945 totaled \$136,431,000. This is real wealth, created by farmers, spent in the channels of Oregon trade, benefiting progressive citizens who, like Grangers, take pride in building a great commonwealth.

Thirty thousand alert, forward-looking farmers are members of the Oregon State Grange. They are directed by these common motives—better living and working conditions; a very real desire to continue shaping the pattern of Oregon's development for the good of all.

BETTER THAN PRIVATE INVESTIGATION

There's an ancient way in which a purchaser might satisfy himself of clear title to land. That is through an exhaustive review of all deeds, wills, marriages, heirships and other documents by which the property has been conveyed, mortgaged, leased or transmitted over a long period of time. The purchaser of land who protects himself with a Commonwealth Insured Title avoids this endless detail, knowing, too, that no flaw will exist in the title to cause loss.
