Today...busier than ever!

If you sometimes notice a delay before you hear the familiar "Number, please," or "Operator," it's because our switchboards, even at wartime peak, were never as busy as they are right now! Today we're serving more customers who are making more calls than ever before. Volume at times is so great that the operator cannot answer your call as quickly as she would like.

New equipment to take care of all waiting applicants and furnish better service than ever to all telephone users is being made and installed. But it's a big job... and will take time.

Our operators, meantime, are doing everything they possibly can to furnish you the prompt and courteous service you have been accustomed to. Thank you.

1. Bill does not prohibit commercial fishing in coastal streams. It regulates WHEN, WHERE and HOW fish may be taken.
2. Bill actually affects year round employment of very few—perhaps not 25.
3. Bill would save about 90% of our steelhead. (Note: A steelhead is a rainbow that has gone to sea and returns.)
4. Bill does not affect commercial fishing on Columbia nor does it effect the taking of SHAD.
5. Bill No. 312 would assure a future supply of Oregon's No. 1 foodfish, the salmon—and protect Oregon's No. 1 tourist attraction—the steelhead.
6. Bill directs Fish and Game Commission to conduct studies in order that we may have FACTS with which to manage and safeguard Oregon fisheries.
7. Taxpayers are now paying \$165,000.00 each biennium to maintain fishing for commercial interests. More protection will help rebuild the fishing, thereby reducing taxpayers' load.
8. Legislature has tried on two occasions—1941 and 1945—to save these fish for YOU and the FUTURE. Now your help is needed to make this bill (312) a law.
9. NO TAXES. This is not a money measure. Rather it would help reduce taxes.
