Will YOU lose your home?

● If your property has passed through many hands, title to it becomes a complicated matter. You could even lose your home. Take the case of Mr. Jones. Shortly after his family was settled in a new home he found a deed to the property had previously been recorded by another party. Jones had to go to court to save his home. A Commonwealth Insured Title search would have revealed this double claim to ownership and probably prevented a costly lawsuit.

Your deed alone is no assurance that property is yours. If a Commonwealth Insured Title shows you own the property, you are protected against such claims. Avoid fear of loss. Have full protection of ownership. Ask your experienced realtor, attorney or banker about Commonwealth Insured Title.
