## Worth Waiting For!

You've probably been hanging on for a long time, patiently waiting for the sparkling new electric appliances you want. We're waiting, too — for critically short powerline and substation equipment.

Increased production means your dealer should be getting additional electric washers, ranges and refrigerators in the near future. And when yours does arrive you'll be surprised at the extra-low operating cost — for PP&L rates are only half the national average!

Yes, new electrical appliances ARE worth waiting and saving for.

## MISSING HEIRS threaten ownership!

If you were the first and only owner of your real estate, your title to it might go unquestioned. But joint ownership can complicate matters, as the Browns' discovered. When they bought a new home in Oregon, their realtor ordered a Commonwealth Insured Title.

The court records showed the seller was the sole heir to his immigrant father's estate. However, the court records proved faulty. Over a year later seven European brothers and sisters of the seller laid claim to the property as heirs of their father's estate and established their claim. Commonwealth assumed the entire loss and paid them off. The Browns kept their home, thanks to a Commonwealth Insured Title. Ask your experienced realtor, attorney or banker about the many advantages of a Commonwealth Insured Title.

## One always stands out

\* The HALF MOON, Hendrick Hudson's ship, sailed on September 3, 1609, up the river which bears its skipper's name. Because of the detailed report of the area made by Hudson during this trip, Dutch authorities decided to colonize the New York bay area. But for the voyage of the sturdy little Half Moon, New York City might never have grown up on Manhattan Island!
