Marry Young? Marry Old?

When Jeb Crowell's daughter, Sue, married nineteen-year-old "Slim" Blake, a lot of folks (especially older ones) began to shake their heads. Young marriages! Tut, tut!

So I looked up some figures. It's true, young American girls and boys marry younger than in other countries. And where do you suppose they had the least chance? I won't name it, but maybe you've guessed. One of those countries that before the war suppressed all individual freedom and tolerance.

That's why I'm not worried about our younger married couples. They were raised in a country that respects one another's right—a country of tolerance and temperance (a lot of bridegrooms are ex-G.I.'s, and it looked to me like their favorite beverage was beer!)

From where I sit, it isn't when you marry that's important. It's the all-important spirit of tolerance and understanding that you bring to marriage.

The driver of one of these cars was in the act of passing another motorist just as he neared the crest of a hill. He collided head-on with a driver coming over the brow of the hill, and with the terrific impact the lighter car was crushed under the heavy one. The lawbreaker in this accident was killed—so was the other driver, and a passenger was seriously injured. Passing on blind curves and on hills is simply gambling with death. Improper passing accounted for more than 35,000 highway deaths and injuries in 1946, according to the National Conservation Bureau.
