HAPPY NEW YEAR

....but just a minute

This newspaper could, as it has in the past, take this occasion to wish all its readers and subscribers a very happy New Year.

Simply that, and no more.

But we feel that a few extra words of friendliness are very much in order, especially today.

We not only want to wish you a happy New Year for 1948, we want to point out how you can make 1948—and every year after—a happier year for yourself and your family.

How? By keeping up your splendid regular purchases of U.S. Bonds through the Payroll Savings Plan

where you work. If you're self-employed, and Payroll Savings is not available to you, buy through the Bond-A-Month Plan at your bank.

We don't have to remind you that saving is a community affair today. You know that the more savings this community sets aside today, the brighter the future will be here for all of us. That is why we so strongly urge that everyone—wage earner, businessman, professional man—continue to build up his future security through regular U.S. Bond purchases.

Then . . . our wishes for many, many happy and secure New Years for you and yours will certainly come true.
