# new telephone rates

New telephone rates will go into effect with the next telephone bills, beginning with those dated January 11. These new rates have been approved by the Public Utilities Commissioner of Oregon following extensive hearings. Increased costs reduced the current earnings of this business in Oregon to a point far below even the minimum generally conceded as necessary. Our rates, generally, have not been increased since 1921 in most Oregon cities and towns.

Our policy with respect to earnings and service will continue to be: To render an ever improving telephone service at a cost as low as is consistent with financial safety and fair treatment to employees.
