From where I sit... by Joe Marsh

Where Does Your Money Go?

Read the other day where country folks and farmers spend more money, proportionately, on their homes than city dwellers do.

Doesn't seem hard to believe when you think it over. Take the folks in our town, for instance: They're home-loving people—who'd rather spend an evening by the fire with a mellow glass of beer than go out in search of entertainment or diversion.

So it's only natural they put more into what means most to them and to their children: their homes. They

may not have too much to spend—but it goes for those permanent, abiding comforts that make home a nicer place to be.

And from where I sit, that budget calls for some of the niceties of home life too—like elder and popcorn for the kids from time to time, and a friendly glass of beer for Mom and Dad... things that belong with what we mean when we say "Home."

Our New Wire would reach to Panama

This year PP&L will string over 2,000,000 pounds of new wire, as it expands its system to serve new customers and strengthen service to existing users. That's enough wire to stretch from here to Panama! Our construction program this year is the largest in our history.

THIS GROWING REGION USES MORE AND MORE OF PP&L'S CHEAP ELECTRICITY!

Electric rates here are the lowest in history—less than half the national average
