13 000 "Time-Clocks" for Reddy

Reddy Kilowatt always punches a "time-clock" to record exactly how long he works for you. His time-clock is the electric meter. Periodic checks show that PP&L meters are far more accurate than the average watch. This year, PP&L will make more than 13,000 new meter installations, primarily to new customers. The company's 1948 construction program is the largest in history... to keep pace with demand for its low-cost electricity.

THIS GROWING REGION USES MORE AND MORE OF PP&L'S CHEAP ELECTRICITY!

Electric rates here are the lowest in history—less than half the national average
