AFter ELECTION VICTORY... Despite warfare and Communists, they still were able to hold an election in China. Chiang Kai-shek was elected the first president of the new Chinese republic under the new constitution, and Gen. Li Tsung-Jen was elected vice-president. In the photo, the 59-year-old Gen. Li Tsung-Jen and his wife are shown bowing to President and Mrs. Chiang Kai-shek after visiting at their home and receiving congratulations.

SOUL-SAVER AT SEVEN... Renee Martz is seven years old and an established evangelist who divides her time between the Bible and her dolls. Renee has been preaching since she was four, has traveled 30,000 miles and led 6,000 souls to the altar "to confess their sins," she says. "Once you're saved all you have to do is "just keep on the Lord's side," is her lesson.

HOW TO COLLAR A DOLLAR—AUTOMATICALLY!

DO YOU have trouble collaring dollars?

Do you find that after paying your bills and meeting your day-by-day expenses there aren't many dollars left to collar—to save for your future needs?

If you do, here's a bit of good advice! Here's how to collar those dollars-for-the-future automatically!

All you have to do is sign up for the Payroll Savings Plan! Then, regularly as clockwork, part of your earnings are put into U. S. Security Bonds.

Automatically, you start to build financial security, to store up dollars for things you really want—like a home of your own,

or college for your kids, or a healthy retirement fund.

And the dollars you collar this way actually make more dollars. A \$75 Bond will make 25 more dollars in just 10 years. You get back \$100 in cash!

These U. S. Security Bonds help stabilize prices. WISE SAVING means more SENSIBLE SPENDING... Fewer dollars go to market to bid up prices on scarce goods.

And it's wise debt management, too. Every bond dollar that is built up in your Government's Treasury is used to retire a dollar of the national debt that is potentially inflationary.

AMERICA'S SECURITY IS YOUR SECURITY!

Why not buy some bonds before harvest and make sure of an income in 1958 when there may be less wheat and a smaller price
