The Alma Trio, which will be heard the evening of August 5 in the opening concert of the Hood River Music Festival, is composed of three international musicians: Adolph Baller, pianist; Roman Tottenberg, violinist; and Gabor Rejto, cellist. Among the comments of music critics at the New York debut of the Alma Trio were: "Able to get a combine in which tone and intellect of its members are so truly integrated." "... pooled their notable musical and technical resources with high purpose and commensurate result."

## Bob May & Son

7A Model weighs approximately 1200 pounds. Works better under difficult conditions than lighter machines.

Every machine can be assembled as a right hand or left hand drive machine. Very strong, heavy goosenecks.

The transport, weighing nearly three hundred pounds is the right distance behind the revolving rod. Tiller wheel assemblies work perfectly and last longer.

The straight chain drive on Cheney Weeders is not excelled by any other kind of drive. There is plenty of clearance for stubble and weeds.

For nearly forty years Cheney Weeders have satisfied farmers who want the best. Cheney's are strong, convenient and dependable.

R. H. McKean & Son of Wasco, Oregon have been distributors of Cheney Weeder products ever since these valuable implements were first invented. The Cheney Weeder Company also builds the Cheney SOIL SAVER plow which is recognized as a very successful tillage machine to work the ground properly and to hold it in place.

McKean & Son carry a good stock of Cheney's products and can supply you immediately with these well built and profitable implements. See them at
